

Accreditation

Our Lady of the Rosary School is accredited through NISAC
(National Independent Study Accreditation Council)

Dear Parents,

Thank you for your interest in Our Lady of the Rosary School. We hope the enclosed information will help you to make a sound and lasting decision regarding the education and formation of your children. If you have any additional questions after reading this material, please feel free to contact us by mail, phone, fax or email.

We offer two types of programs:

1. Curriculum Program:

This program offers enrollment in Our Lady of the Rosary School, all text books, teacher's manuals, workbooks, lesson plans and exams. Quarterly exams, book reports and any creative work asked for in the lesson plans and submitted to the school will be corrected and graded by our qualified staff of teachers. Report cards are issued at the completion of each quarter's work. Diplomas are awarded for completion of kindergarten, eighth grade and high school programs. Honor roll certificates are awarded for excellence to deserving students. Grade maintenance and retention are provided, so transcripts will be available for transfers and entrance into college. The Curriculum Program provides everything you need to give your child a superior Catholic education at home, and it also includes the assistance of teachers and counselors to make your homeschooling experience as enjoyable and successful as possible.

2: Full Consumable Curriculum Program: (for parents teaching a pre-purchased grade to younger children).

Our Lady of the Rosary School requires that all books and lesson plans be returned to the school at the completion of the school year. However, families with younger children may retain this material as long as they feel it is necessary, in order to teach their younger children. We do ask that you only retain this material for use by children of the family that originally purchased the curriculum. In this way we can work together to help reduce your homeschooling costs. This program is designed to make it possible for you to purchase only what you need to teach your other children, and it can provide a significant yearly savings to families with more than one child.

Although much of the retained curriculum will be able to be used to teach younger brothers and sisters, some materials (such as workbooks, exams, lesson planners, etc.) are consumable by their nature and are not reusable. These will have to be replaced if you are going to teach the same grade to a younger family member. The Consumable Curriculum Program was designed to replace only these consumable materials and to pass the savings on to you. Only the original purchaser of the Curriculum Program for that grade will qualify for the Full

Consumable Curriculum Program.
